Joint Land Use Study: Tool to Promote Compatible Use

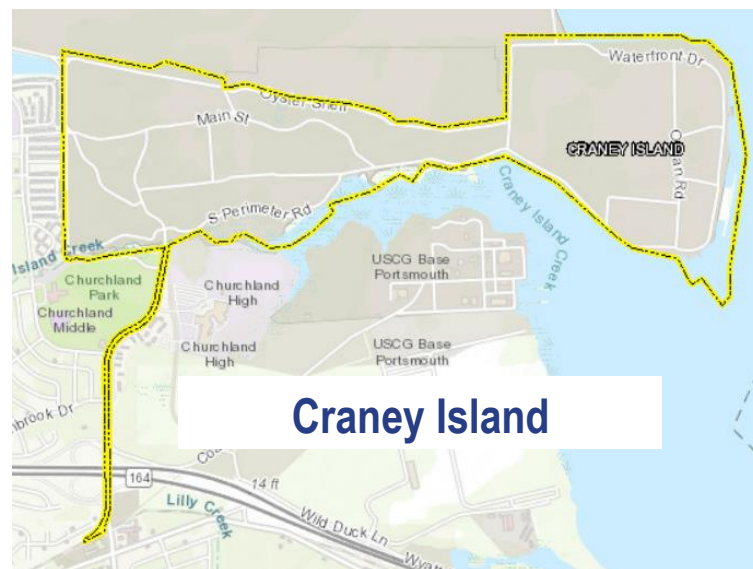

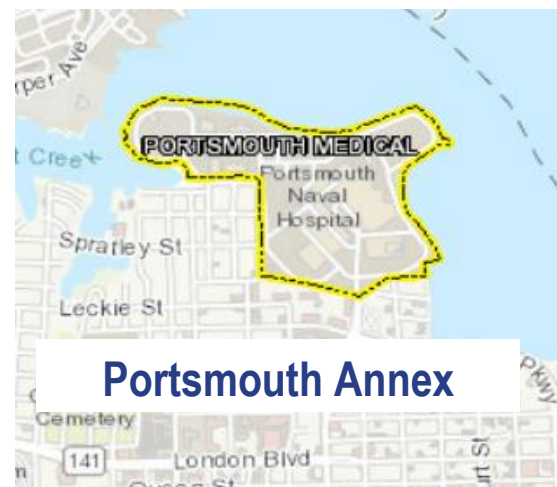

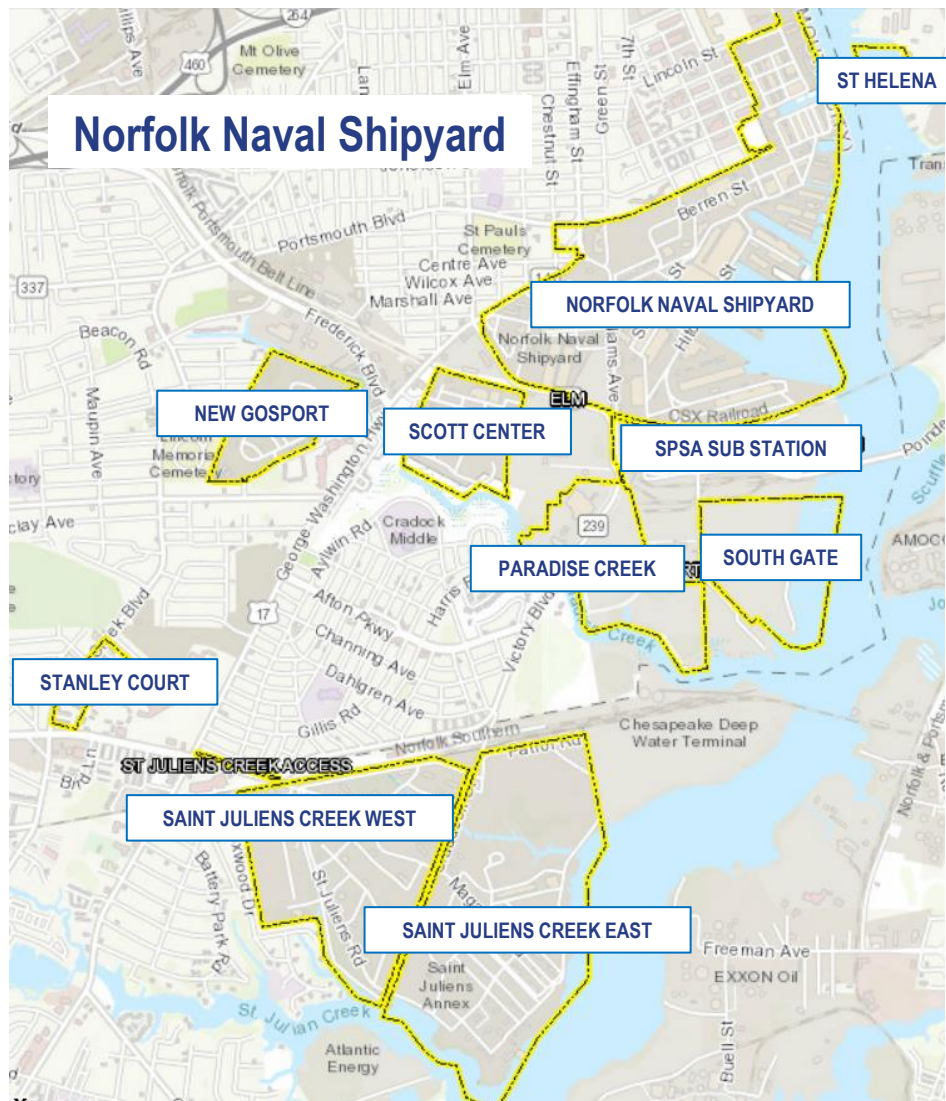

- **Goal:** Achieve compatibility between military and local communities by protecting and preserving military readiness / defense capability while supporting economic development
- Initiated through Military Department nomination
- Cooperative, community-driven effort with local military participation
- Assessment of compatible use factors followed by development of strategic plan to promote compatible civilian development
- Community leadership group established with DoD, local governments, the State, and private sector to guide compatible development

SOURCE: OFFICE OF ECONOMIC ADJUSTMENT (OEA)
